Go High Level Appointment Funnel

Hey folks,

Re: Appointment Funnel

Few people were asking so here is the Agency snapshot (NOT MY affiliate link, this was a snap I pulled from SevenFigure Agency)

-When you open the link, click " I'm already a GHL user'

-If you are new to GHL, I think there are prob better links/snap then this out there (Check out extendly)

-Also keep in mind that although the snap is good, it can cause more confusion/complexity (I wasted months chasing snapshots and wasted lots of time/energy)

-I used this snap 2 years ago, so not sure if any changes have been made since (back then, GHL used triggers, now they use workflows)

-Don't import this into your main account as it could overwrite some existing data/custom values/etc... -> Create sub-account first and import there first so you can see/test it out first.

-Be sure to change your custom values once in GHL -> Settings
